It is held every year to thank active-duty military members, veterans, and their families. Around 450 people attended this year's event, not including businesses and volunteers.

# Thank You

FOR EVERYTHING YOU DO

CEO / General Manager

Dear members,

**2021 was a wonderful year for High West Energy amidst many challenges that the energy industry, as well as our local communities, faced. Not only are we recovering from the COVID-19 pandemic, but we are facing other economic challenges. Although new challenges arise, High West Energy focuses on finding new opportunities to mitigate increased costs and do what is best for our members and employees.**

Inflation, increased fuel prices, and supply chain issues have affected High West Energy and our communities. Amidst these challenges, High West Energy will continue to evaluate modern technologies and innovative opportunities to better serve you.

High West Energy prioritizes our members, and we focus on how we can best serve you. Thank you for being a member at High West Energy. Thank you to our members for everything you do, the knowledge that you provide us, and the support you give to our communities through sponsorships, donations, and scholarships. Because of you, our communities can grow and prosper during challenging times.

In total, we donated more than \$37,000 last year. This money supported organizations including youth programs, the Wyoming Breast Cancer Initiative, the Kimball Hospital Foundation, and many other organizations.

Another program that helps many individuals is Operation Round Up. Thank you to our

members who volunteer to be part of this program as this provides so much support to those in need in our communities. In 2021, members donated \$46,779 and of that total, \$35,106 was given to members in surrounding communities.

Because of our members, High West Energy was also able to support 15 students with \$13,000 in college scholarships, which is a substantial investment in the future of our communities.

In addition, High West Energy would not run efficiently without our employees. Our employees are at the forefront of this company and without them, it would not be the company it is today. Our members and our services are our priority, and our employees ensure that our members are taken care of.

High West Energy will continue to provide our members and communities with safe, reliable, and competitively priced energy and services. Thank you for being a member and trusting everyone at High West Energy!
